These opinions make the position of the unique little company, which owns this piece of road, impregnable. STREET COMMITTEE ACTS.

STREET COMMITTEE ACIS.
The Street Committee several weeks ago created a subcommittee to look into the matter of the removal of the Belvidere-Street tracks. In the Street Committee it was stated with considerable positiveness that the connection railroad, as it is called by way of abbreviation, was using the streets altogether without authority, and only by sufferance. The subcommittee, by way of entering the work to work to the subcommittee. upon its work, invited an opinion of the City Attorney. This opinion was re-ceived by the subcommittee last night. The subcommittee was considerably surorised at its contents. It effectually ended the whole movement. The subcom-mittee referred the opinion and also a lengthy petition from residents in the western part of the city praying for the removal of the road, to the full Street Committee. There the matter will rest.

The measure originated in the Health Committee, which has charge of the street cleaning force, from one of whose carts, it was charged, the fatal barrel had been dumped. When the measure reached the Board of Aldermen it struck a snag. Several aldermen feared that its passage might establish a precedent that might at some later date be extremely costly to the city.
